[BRAND GUIDELINES · VERSION 1.0 · 2026-10-14]

fieldwork

Practise AI on real work. The identity of a practical AI learning company.

A gallery of *real work.*

Specimen Room

The lead register (about 65%). Calm, photographic, serif. Work is exhibited like objects: framed in plates, captioned with museum labels, hung on chalk and stone. Used for the consumer side: learning, exercises, Field Notes.

The Brief

The supporting register (about 35%). Confident grotesque type, oversized wordmark, bracket numerals, ruled grids. Used for the business side: training, real estate, proposals and sales material.

One benchmark

A survey benchmark (ring, cross-hairs, centre dot) is the symbol in both registers. It says: this is a fixed point from which work is measured. The clay centre dot is the one constant accent.

[PERSONALITY]

Practical, plain-spoken, honest about status, quietly confident. Never hype, never jargon, never fear.

[STRATEGIC LINE]

Learn by doing. Put knowledge to work. Everyday tagline: *Practise AI on real work.*

The wordmark *and symbol*

[PRIMARY · DISPLAY WORDMARK]

fieldwork

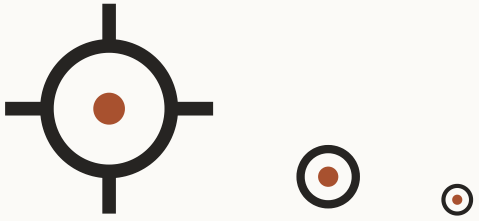

Schibsted Grotesk ExtraBold, lowercase, dotless ı with a drawn benchmark tittle. Use for hero moments, covers, footers, social.

[COMPACT LOCKUP · HEADER AND DOCUMENTS]

FIELDWORK

Benchmark symbol plus Cormorant Garamond capitals, tracked. Use wherever the logo sits under about 40mm wide.

[SYMBOL]

Full, small (no cross-hairs, heavier ring) for under 24px, and favicon.

ARCHIVED · THE BRIEF WORDMARK

fieldwork

Halftone-disc tittle from Concept 2. Kept for reference and print-only use in business material; not the primary mark.

Colourways, *space and size*

Clear space

Keep a margin equal to the height of the symbol's ring on every side. Nothing enters it.

Minimum size

Lockup: 28mm / 110px wide. Wordmark: 20mm / 80px. Symbol: 6mm / 16px (use the small variant below 24px).

Do

- Use the supplied files only
- Keep the clay dot clay on light grounds, clay-light on dark
- Use one-colour versions for print and stamps

Do not

- × Redraw, recolour or outline the mark
- × Stretch, rotate, add shadows or effects
- × Place it on busy photography without a plate or scrim
- × Use the dotted-i version as the primary mark

A restrained *gallery palette*

Ratios

Chalk about 60%, charcoal 20%, indigo 10%, stone and clay the rest. Clay is small: labels, numerals, one dot, one emphasis word. No bright or neon colour.

Contrast (measured)

PAIR	RATIO
Charcoal on chalk	14.2 : 1
Indigo on chalk	10.9 : 1
Chalk on indigo	10.9 : 1
Clay on chalk	4.6 : 1 (12px+)
Clay on stone	4.26 : 1 fails small text

Learning grammar

Charcoal is instruction. **Clay** is the label or note. **Indigo** is the example and the result. Hairline is decoration, never text.

Four typefaces, *four jobs*

[CORMORANT GARAMOND]

Aa *Gg*

Headlines, ledes, plate titles. 400 and 500, italic for the emphasis phrase. Consumer register.

[SCHIBSTED GROTESK]

Aa

Business headlines, bracket numerals, the wordmark. 700 and 800, tight tracking.

[HANKEN GROTESK]

Aa

Body copy and interface. 400 body, 600 emphasis. 16 to 17px, line height 1.6.

[GEIST MONO]

Aa
[01]

Museum labels, indexes, eyebrows. Uppercase, tracked, small.

All four are SIL Open Font Licence and are self-hosted, so the site makes no third-party font requests. Headlines run 0.9 to 1.0 line height with negative tracking. Italic marks the one phrase that carries the point. Never set long text in the mono face.

Plate, label, *bracket, index*

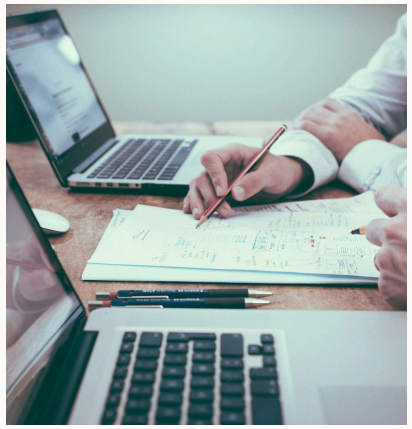

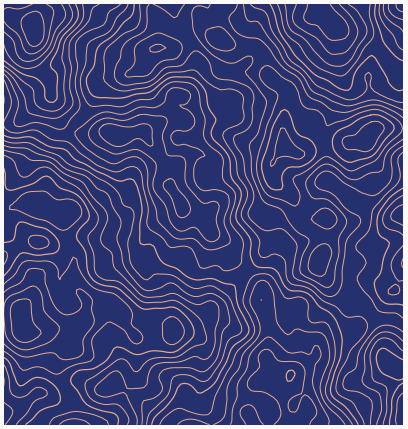

Plate 01. The brief
STOCK PHOTOGRAPH, ILLUSTRATIVE.

The plate frames every image: gallery mat, hairline border, soft shadow. The museum label names the plate and says what it is.

Specimen 014. Weekly update
15 MIN · FILED 14 OCT 2026

Labels also name exercises and Field Notes like specimens. Square corners, 1px charcoal, mono caps.

[01]

[02]

[03]

Bracket numerals in Schibsted 800 mark sequence on business and index layouts. Small mono brackets elsewhere.

[PROBLEM]

[PRACTICE]

RESULT

Problem, Practice, Result: the three-part proof used for every example. The result sits on indigo.

Photography *and field art*

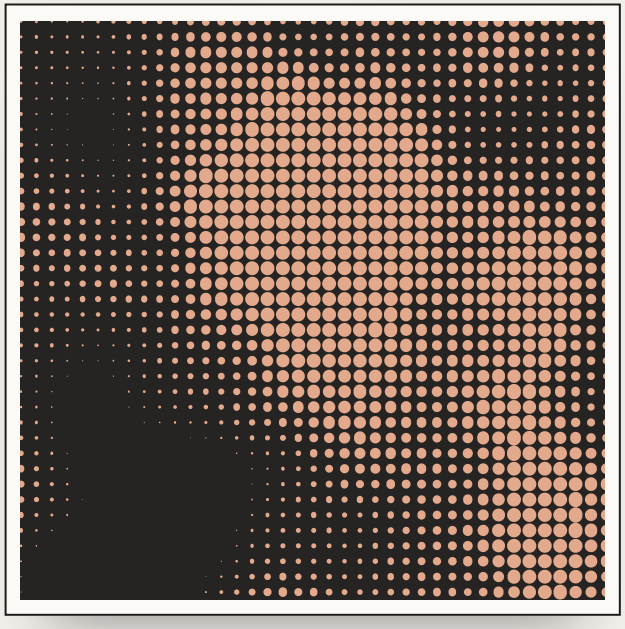

Photography

- Real places and real working surfaces: homes and exteriors, desks, notes, meetings, Lagos and London
- Natural light, honest colour, no staged handshakes or glowing brains
- Always inside a plate; crop to 4:3, 3:2 or 3:4
- Stock is labelled illustrative; never implies a client or result

Field art

- Generated contour and halftone terrain, one seed per plate
- Indigo on chalk, clay-light on charcoal, clay-light on indigo
- Supports photography: covers, social, empty states, document backs
- Never behind running text

Two registers, *one brand*

[CONSUMER · SPECIMEN ROOM]

Practise AI on *real work.*

Serif headlines, chalk ground, plates with labels, calm pacing. Headline case: sentence case with one italic phrase.

BUSINESS · THE BRIEF

Your team, practising on your own work.

Grotesque display, bracket numerals, ruled grids, indigo and charcoal bands. Same plates, same labels, same symbol.

Rules that never change: square corners, 1px rules, one clay accent, British English, honest status labels (Available now / Planned), no invented testimonials or clients.

How Fieldwork *sounds*

Say

- Plain verbs: brief, run, check, keep
- What exists, what is planned, what is untested
- "AI drafts. People decide."
- British spelling, sentence case, short sentences

Avoid

- × Revolutionise, unlock, supercharge, game-changing
- × Guarantees of productivity, compliance or savings
- × Fear of being left behind
- × Invented clients, quotes, statistics

Examples

Headline: Bring one task. Leave with a workflow.
Button: Try the free exercise
Status: Planned, not yet available
Caution: Fieldwork is new and has no agency case studies yet.

What is *in the folder*

ASSET	LOCATION	USE
Logo SVG + PNG, all colourways	public/brand/logo, logo/png	Everything
Archived Brief wordmark	public/brand/logo/archive	Reference, print only
